PROJECTS

- **A Gesture- Based Tool For Sterile Browsing Of Radiology Images**

In ICUs, using computer keyboards and mice can spread infections. This project introduces hand gestures as a sterile alternative for browsing radiology images, enhancing hygiene and efficiency.

- **Real Time Dashboard**

A real-time dashboard with auto-updating visualizations allows for trend identification and efficient monitoring using current and historical data.

- **Music Website**

The music & podcast hub is an interactive site with a vast library of music and podcasts, featuring a clean, responsive design built with HTML5, CSS3 and JavaScript.
